

Testimony Dr Matthew DONALDSON

A big thank you to Lionel NEYTON for a fantastic 6 months of shoulder fellowship at Centre Orthopédique Santy Lyon and Hôpital privé Jean Mermoz!

Living in France with my family has been an amazing experience and shoulder highlights including:

- Perform stem (with long compactors)
- BIORSA with #Blueprint planning and #MixedReality
- Pyrocarbon Hemiarthroplasty with glenoid preservation
- Cuff repairs with anterior cable Haubanage, large tear Montgolfier' technique or Mermoz Shoe-shop' partial repair the list goes on
- and of course, the Lyonnaise classic la butée (Latarjet)

A pleasure to meet the staff and other surgeons at Santy & Mermoz and thank you to fellows who shared the experience Edoardo Pierpaoli, Alessandro Mazzola & Khaled Ghannam. Vivez sous les couleurs unies de l'épaule, à bientôt !
